RAMBLING RANGERS 2024

The summer of 2024 was phenomenal for the Longhorn Rangers! With SEVEN trips to the Colorado Rockies (Inks, Springs & C3) the Rangers experienced whitewater rafting down the Arkansas River, rock climbing in 11-Mile Canyon, hiking the Great Sand Dunes and camping under the stars, all while learning tools that help them become the leaders of tomorrow! The Rangers from C3's 2nd, 3rd, 4th & 6th Terms also participate their own Texas-based Ranger Trip through the Texas Hill Country and are given the unique opportunity to raft the Guadalupe River, go zip-lining in Wimberley, TX and visit the Meadows Center on Spring Lake in San Marcos, TX!

The 2025 Longhorn Ranger Program will see the addition of several NEW destinations including visiting the Royal Gorge Bridge near Canon City, CO and Mesa Verde National Park outside of Durango, CO just to name a few!

A special thanks goes out to all our Ranger Counselors and Ranger Staff who helped guide these young men down the path towards success this summer. We hope that all the Rangers who earned their Early Bird last summer decide to put their newly-acquired leadership skills to good use and return next summer and continue making Camp Longhorn a home away from home! Please contact Ross Oliver if you have any questions.

Attawaytogo,
Ross Oliver
Ranger Director

Sailing – A Camp Longhorn Tradition

It all started with the “Ferd,” a homemade 2x6 sailboat made from scraps in the early 1940s. Built by Bob Tarlton, the Ferd featured a large metal centerboard that almost sank it on every voyage. It was aptly named after the first camper, Fred Alford, who was nicknamed Ferdinand. When the camp reopened after World War II, a Navy friend lent a large 24-foot sailboat for a photo shoot to promote the new and improved Camp Longhorn, and the boat remained for a few more summers.

In the 1950s, the “Sabot” (Dutch for “shoe”) became the next type of homemade boat. The mold for the Sabot is still on display in the Inks Lake shop rafters. Bill Johnson recalls, “We tried to build them faster than the campers and counselors could demolish them. We had about 14 by 1955, but the number varied from year to year. Emory Bellard was an excellent Sabot builder, helping Bob Tarlton immensely. In the 1960s, Tex bought the stock of “Dolphins” from a bankrupt company. After a couple of years, it became clear why the company went bankrupt, as the Topsy boats were neither reliable nor lake-worthy.” These boats were preserved in “Pig City” (the junkyard) to be used later as demolition targets for the Marines and Marinas (but that’s another story).

The next boats that made their way to Longhorn were the Sailfish. Fast and sleek, they could accommodate only one or two people. They were launched from the shore until Bob Tarlton devised the ingenious floating docks we have today, which facilitated a much easier transition between activity groups. Bob also created a direct P.A. system that could be aimed at a boat he wanted to instruct. With his clear, precise directions, the sailing program really took off. Around this same time, Bob Hudson purchased a large catamaran that could take nearly an entire cabin of young campers on windy day rides. When Johnny Rob took over from Bob in the late 1970s, he continued the tradition with his Hobie Cat. Around the same time, the boys' camp added a unique schooner-type boat named the Tornado!

When young Larry Skelly joined his sisters Katherine, Ruthie, and Sallie at Camp Longhorn, their parents decided to come as counselors. Ruth and Lawrence Skelly, with their many years of sailing experience, greatly contributed to the sailing program by introducing new rules, right-of-way guidelines, and regattas. They also brought the first round of Sunfish boats to camp, which we still use today. With 30 boats in the water between the girls', boys', and C3 camps, the sailing program is now a breeze, thanks to the many contributions over the years!
